Western Interstate Commission for Higher Education WICHE

WICHE, the Western Interstate Commission for Higher Education, is a nonprofit regional organization. Through WICHE, thirteen member states and one affiliated state work together to provide high-quality, cost-effective programs to meet the education and manpower needs of the West. Member states are Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, New Mexico, Nevada, Oregon, Utah, Washington, and Wyoming; North Dakota is an affiliated state. WICHE's Information Clearinghouse provides reports and other forms of assistance to higher education and government policymakers in the West.

INTRODUCTION

This report of tuition and fees is the sixth in an annual series published by the WICHE Information Clearinghouse. The report contains tabular presentations of tuition and fee charges for full-time, full-year attendance at public institutions in fourteen western states. These charges are reported for the following categories:

1. community college students
2. resident undergraduates at four-year institutions
3. nonresident undergraduates at four-year institutions
4. resident graduate students
5. nonresident graduate students

For each of the five categories, information is presented for 1985-86, 1984-85, and 1981-82, along with the percentage changes between these years. Separate tables present arithmetic averages for specific groups of institutions and states. Percentage changes in these averages from previous years are also provided.

Uniform definitions are used in collecting data from the states. Tuition is defined as the total dollar amount paid by a full-time student for a full academic year--usually two semesters, three quarters, or two trimesters. Required fees are defined as the total fees that a majority of full-time students pay in addition to tuition. California and Idaho do not charge state residents tuition per se. Thus, the resident student charges reported by these states are for required fees only. Using these definitions and checking the data as closely as possible, we hope this report has achieved reasonable comparability among states with respect to the average costs faced by full-time students.

Periodically, the Information Clearinghouse also provides a summary report of state policies and practices for determining tuition and fee charges. Some western states, for example, peg tuition rates to a proportion of instructional costs or other measures, or specify a relationship between resident and nonresident tuition rates. The last such policy overview was done in 1984, and is available from the Publications Secretary at WICHE.

HIGHLIGHTS

Tuition and fee charges for state resident students at public institutions in the West increased more rapidly in 1985-86 than in the previous year. For nonresident students, the increases were slightly lower than those of the previous year. In both cases the increases were below the exceptionally steep yearly increases in tuition and fee charges that occurred in the early 1980s. The pattern continued, however, of increases in student charges that exceeded the general level of price increases. For example, the increase in the Consumer Price Index for 1985 was less than 4 percent, significantly below the increases in average charges for all five categories of students identified in this report.

For community college students in the West, full-time attendance charges averaged $571 in 1985-86. The current average charges represent an 8.0 percent increase over the previous year. California community colleges, where $50 per semester state fees were initiated in 1984-85, are excluded from these calculations.

Undergraduate resident tuition and fees at four-year public institutions in the West averaged $1,057 in 1985-86. This is an increase of 6.5 percent over the previous year for the region as a whole, although charges in California, Hawaii, Nevada, and Wyoming remained essentially unchanged.

Average graduate resident tuition fees were $1,197 in 1985-86, up 6.1 percent from the previous year.

For nonresidents in the western states, public institution tuition and fees are over three times the charges for state resident students. For undergraduate nonresidents, average charges in the West were $3,702 in 1985-86, a 6.7 percent increase over the previous year. For graduate nonresident students, average charges were $3,904, a 6.7 percent increase in one year.

Table A summarizes the average charges for full-time students in each of these categories for the years 1979-80 through 1985-86, using data reported in the following institutional tables and in previous years' reports. Table B indicates the yearly percentage changes in average tuition and fee charges since 1979-80.
